## Scout Leader Was Kiwanis Speaker

### GAVE RESUME OF BOY SCOUT ACTIVITIES

Grayling Kiwanis club is sponsoring the Boy Scout organization and Frank Bond, scout master, Wednesday gave a resume of the activities of the scouts during the summer months.

It was very interesting to the members to listen to Mr. Bond's account of the way the kids got started in scout work. Before the season ended these youngsters had learned to do a commendable lot of outdoor work such as camping, cooking, woodcraft, and a lot of other activities. The youngster who spoiled three perfectly good eggs before he learned how to break them into the frying pan, now does the job without any spoilage. And other activities, he intimated, showed decided competence under proper instruction as the time passed.

The group had several supper hikes and a few over-night hikes, and it was great fun, even though at times the rains were not so inviting. Mr. Bond devoted much of his time to the boys during July and August. When the first call went out for members, ten boys responded. Since that time six more have been added to the troop and it is the desire of Mr. Bond to have an enrollment of 32 members by next summer. Reorganization of the Scout Bugle corps will be started soon.

Mr. Bond has been doing excellent work with the Scouts and the members of the Kiwanis club feel that they are very fortunate in securing his services. The boys are in good hands and under an influence that bespeaks splendid ideals. Parents should want their sons to join the Boy Scouts for it's probably the finest boys organization in the world.

President Clippert stated that the American Legion is starting an activity that is to promote better citizenship. Next week is "Constitution Week" and Kiwanians everywhere are having it a part of their week's program.

### DANISH LADIES AID GIVES COFFEE PARTY

To honor Mrs. R. Hanson, who was celebrating her ninetieth birthday on Saturday, the Danish Ladies Aid entertained with a coffee party Friday afternoon.

Following a short program of songs, lunch was served to some twenty-five ladies. In the center of the table was a birthday cake surrounded by candles. Bouquets of flowers also decorated the tables.

Mrs. Chris Johnson, president of the Aid, had charge of the affair and it was one of the most pleasant occasions of the year. On Saturday Mrs. Hanson received a bouquet of beautiful roses from the Aid as another reminder of the day.

### Notice

The party who took tire and wheel from my car at the dance at Camp 872 on Aug. 31st is known. However if property is returned at once no questions will be asked.

John LaMotte.

### MRS. R. HANSON CELEBRATES NINETIETH BIRTHDAY

It was with real appreciation and pride that the children, grandchildren, and great grandchildren and friends of Mrs. Rasmus Hanson gathered Saturday to congratulate her on ninety years well spent, of which 57 years were spent in Grayling, where she is loved by the entire community.

At noon a dinner was served to the family at the dining hall at Lake Margrethe. Places were arranged for seventeen guests.

In the afternoon, Mrs. Hanson, assisted by her family, Mrs. Henry Bauman, Mrs. Margrethe Graham, Mr. and Mrs. Oscar Hanson, Mr. and Mrs. Esbern Hanson, received old friends and neighbors as they gathered to extend felicitations and best wishes for many happy returns of the day.

The rooms throughout the Hanson home were filled with beautiful flowers that had arrived from relatives and friends. One outstanding floral piece from the Pochebon family of Detroit, was centered with a huge candle on the upper half of which was the date 1848 and on the lower half 1935. Surrounding the upper half were bright fresh flowers and at the base were everlasting flowers. It was very attractive. Mrs. Hanson wore a shoulder bouquet of orchids, one of many floral gifts from her children.

Throughout the afternoon tea was served in the dining room. The long table, covered with an exquisite cloth, was centered with a large beautiful pink and white birthday cake, which was a masterpiece in culinary artistry; encircling it were 90 lighted candles. It was flanked by pink tapers in silver candlesticks. A second birthday cake, from the "Sisters of Mercy" also graced the tea table. Mrs. Esbern Hanson and Mrs. Walter Woodson of Salsbury, N. C., presided at the tea and coffee urns. Miss Margrethe Bauman and Mrs. Helen Routier also assisted in the dining room.

Congratulatory telegrams and cards were received at intervals through the day. Mr. H. W. Wolff of New York extended his felicitations in a ninety-word telegram which were beautifully expressed.

Those present from out of town were: Rev. and Mrs. Kjohede of Grant; Mrs. Carrie Johnson and Mr. Holger Hanson, Ypsilanti; Mrs. Helen Routier and son Ralph, Detroit; Mrs. Walter Woodson and daughter, Grace Matilda, of Salisbury, N. C.; Mrs. Rasmus Bay of Corvallis, Mont.; Mr. and Mrs. Russel Pope of Bay City; Mr. and Mrs. Halford Kitteman, daughter Kathryn Ann, Chicago; Misses Ella and Margrethe Hanson, Lansing, and Esbern Hanson, Jr., of Crystal.

### ONE OF MICHIGAN'S BIGGEST THRILLS

Michigan is endowed with pleasure possibilities not to be found in any other state in the union. The writer reflected considerably on this fact this week when we drove to Grayling and floated for 50 miles down the turbulent and beautiful AuSable River. It's an experience one will never forget.—Joe Haas in Holly Herald.

Two Otsego residents, Richard Grand and Mrs. Richard Grand are named as defendants in a \$100,000 suit in district court, Bay City, brought by William C. Pobur and Olga F. Pobur, Detroit, as guardians of Eileen Beryl Pobur and Nadine Nina Pobur, minors. Service was made this week by Milton L. French, deputy United States marshal.

This suit is growing out of the auto crash that occurred in Grayling the latter part of July, 1934, when five young ladies were injured, two of whom were the Pobur girls. Also Miss Jean Peterson and Miss Vivian Dawson of Grayling, and a Miss Wickes of Higgins Lake. Miss Peterson and Miss Nadine Pobur were the most seriously injured. The crash came after Miss Peterson, who was driving her car, made the usual stop at US-27 at Michigan avenue and starting across the highway, a car coming from the south and driven by Richard B. Grand of Vanderbilt crashed into them.

Nature offers a beauty that is not surpassed at any other time of the year, and in the Northland it is superb.

## Mich. Taxpayers Lick Depression

The successful State drive to collect delinquent taxes which ended September 1 is final proof that Michigan has shaken itself free of the depression's last doubts and uncertainties in the opinion of Harry S. Toy, Attorney General.

"Final figures for August collections of back taxes from virtually every county in the state show tremendously increased payments," Toy said. "It is the first convincing evidence I've seen that people are at last willing to bank on what the future holds."

"For some time we have been seeing bigger crowds at the theaters, at the beaches, or out to watch the Tigers. We've been told that more clothes are being bought, that more books are being sold. Feeling better, the people have been making money and spending it more freely."

"But, in spite of this, there has been little to indicate that the public has been looking to the future in faith and confidence. Until very recently, new building construction, new business enterprises and purchases of real estate have continued close to low ebb. These are criteria of the public confidence in business prospects."

"Now, however, the log jam of fear has been broken. Thousands of home-owners have cleaned up most of their overdue taxes. Real estate companies and banks have paid delinquencies on properties they hold. The public has proved it believes in Michigan and is convinced of its stability in the years to come. I look for this new confidence to accelerate the processes of real recovery."

Toy pointed out that when Michigan was undergoing its great industrial expansion and people were coming here from all over the country, the percentage of families owning their homes decreased. "Newcomers to Michigan are preparing to present in this its first Michigan exposition, a complete and concentrated picture of the state's rich, new industry, designed to inform and entertain, and to carry to every person the story of Michigan crude oil and the Michigan gas fields."

## What Next?

## Exhibits Will Feature At Oil And Gas Show

### Complete Story Of Production To Be Graphically Presented At State's New Industrial Exposition

Mr. Pleasant, Sept. 9—More than 65 exhibitors from every section of the country will take part in Michigan's first annual Oil and Gas Exposition, September 23-28, it was announced by exposition officials here this week.

Michigan, already "oil conscious" for many months, was stirred again during the past few days with the completion of seven more large wells in the Crystal-Ferris field, and the tapping of new gas fields which promised to advance Michigan even nearer the top in the producing states east of the Mississippi.

The oil fraternity is preparing to present in this its first Michigan exposition, a complete and concentrated picture of the state's rich, new industry, designed to inform and entertain, and to carry to every person the story of Michigan crude oil and the Michigan gas fields.

### ATKINSON-SWANSON

At a very pretty wedding,

which was solemnized Saturday,

**BANKERS SUPPORT**

**FARM COMMISSION**

The Agricultural Commission of the American Bankers Association is promoting widely among bankers the practice of aiding their farm customers in installing on their farms better financial, accounting and operating methods. It also operates in the endeavors of the state bankers' associations along similar lines.

The commission has published a book on "Making Farm Investments Safe," presenting a compendium of helpful material published over a period of years as a reference guide in the daily routine of banking and farming relationships. It has also published "Factors Affecting Farm Credit," discussing in an illustrative way how farm credit can be obtained on a sound basis.

Another publication is the monthly Bulletin of the commission which circulates to about 10,000 persons, among them the county agents throughout the United States, who make frequent use of the material and suggestions prepared by the commission. Likewise, the commission has appointed 2,300 key bankers covering every county in the United States, who act as focal points in their districts in fostering better understanding between bankers and farmers.

## THE WORK OF CREDIT

### Bank Shows How It Gives Needed Aid to All Classes of Prudent Borrowers

How a bank loan portfolio presents a graphic cross section picture of the business of its community is disclosed by the description which a midwestern bank recently gave of its loans to customers. It revealed also how closely interwoven with its neighbors' varied lives are the threads of the bank's financial helpfulness.

This description showed that the bank had made a loan of \$100,000 to a local shoe manufacturer to purchase materials, discount bills and meet current requirements.

To a wholesale grocer \$95,000 had been advanced for the purchase of inventory, the loan to be repaid over a period in accordance with specified terms set forth in the loan agreement.

Assistance in Personal Matters

Another loan had been made to a home owner to the amount of \$200 for painting and repairing. This was made in cooperation with the Federal Housing Administration and was being repaid in twenty-four monthly installments of \$8.33 each.

A dentist had been loaned \$300 to purchase new equipment. He was paying off the debt out of his professional earnings as they came in.

To a large domestic refrigerator distributor \$30,000 had been granted on warehouse receipts to finance dealer shipments.

A home owner had been granted a \$3,000 mortgage loan to be repaid in three years.

One thousand dollars had been advanced to an office worker on the cash surrender value of his insurance policy to aid him in meeting an emergency.

#### The National Total

If each of these various examples were multiplied many times the result would represent the total volume of credit cooperation which the bank was extending to its neighbors in its community, for aggregate loans to all its customers amounted to more than twelve million dollars.

If the typical examples here given were multiplied by many millions of times the result would represent the total economic cooperation which the banking system of the country as a whole is extending to aid the innumerable personal, professional, industrial and commercial activities which make up the whole business life of the nation. The nationwide total of such loans is in excess of 20 billion dollars.

**Stars and Stripes Short Lived**

Any patriot will tell you that "Old Glory" waves forever, but those more practical minded souls—the statisticians—know better. The national park service, which has charge of the flags that fly over most government buildings, estimates the life of the Stars and Stripes at six weeks in inclement weather and three months under clear skies.

## BANKS PLAN ADVERTISING

Substantial funds have been set aside from the reserves of the American Bankers Association to finance the development by its Advertising Department of a service of informative newspaper advertisements setting forth in brief, popular language, the methods and policies under which banks operate, their effective practices for protecting their depositors' funds, the services they render and the various ways in which they cooperate with business in their own communities in fostering sound recovery and progress.

Some 350 banks are now using this material and it is available at a moderate price for all of the members in the association who care to use it in bringing about better public understanding in their own communities regarding banking and its services. It has materially stimulated the use of newspaper advertising among banks.

Many favorable comments have been expressed regarding the informative and constructive character of its messages. It is issued in two sizes; the larger size is 3 columns wide by 10 inches deep, but in some instances subscribing banks have expanded this to occupy full pages in their local papers in order to obtain a more emphatic effect. Four pieces of advertising copy are supplied each month in this service.

Further be it Resolved: That meters be read by the representative of the Department of Water Supply on the first day of each month or as soon thereafter as is practicable and that statements be mailed to consumers forthwith.

Further be it Resolved: That the consumer be allowed a discount of ten percent of the amount of the service and consumption charges if such charges are paid on or before the twentieth day of the month.

Passed by unanimous vote.

Moved by Schoonover and supported by Sales that the following resolution be adopted:

Resolved: That after October 1, 1935, all persons in arrears for water tax payments be required to pay a portion of their old bills with each current monthly bill.

Further be it Resolved: That the amount of such payments be not less than \$2.00 monthly, and that in case of failure to make such payments the water shall be shut off from their premises.

Passed by unanimous vote.

Moved by Milnes and supported by Jenson that the Clerk and Treasurer be and hereby are, authorized and instructed to transfer \$5,000.00 from the General Fund to the Construction Fund until such time as cash grants from the Federal Government are fully received.

Passed by unanimous vote.

Moved by Sales and supported by Milnes that the following resolution be adopted:

Whereas: On the 9th day of November, 1934, the Council of the Village of Grayling did authorize its President and Clerk to enter into a loan and grant agreement with the United States of America for the construction of a waterworks system,

And Whereas: The Village of Grayling was able to sell its obligations privately and did not require the said loan from the United States of America; and

Whereas: On the 20th day of May, A. D. 1935, the City of Grayling was incorporated and succeeded to all corporate powers and obligations of the Village of Grayling, now therefore be it

Resolved: That the executed copies of the loan and grant agreement now in the possession of the City Clerk, be returned to the United States of America.

Be it further Resolved: That the new grant agreement between the City of Grayling and the United States of America under and subject to the terms of which the United States of America, will, by grant, aid the

City of Grayling, not exceeding in the aggregate the sum of \$15,000.00, in financing the construction of a waterworks system, a copy of which grant agreement is filed among the public records of the City of Grayling in the office of the Clerk, and which grant agreement is hereby made a part hereof, and the same is hereby in all respects approved.

Be it further Resolved: That the Mayor of said City of Grayling be and he is hereby authorized and directed to execute such Grant Agreement in triplicate on behalf of the City of Grayling, and the Clerk of said City of Grayling be and he is hereby authorized and directed to impress or affix the official seal of said City of Grayling to each of said three copies of said Grant Agreement and to attest such seal.

Passed by unanimous vote.

Moved by Olsen and supported by Jenson that the following resolution be adopted:

Resolved: That the City Clerk, in conjunction with the members of the Council, has compiled an ordinance entitled "An Ordinance to Regulate the Sale and Distribution of Water in the City of Grayling," and

Be it Resolved, by the City of Grayling: That the Clerk be and he is authorized to execute and file an application on behalf of the City of Grayling to the United States of America for a grant to aid in financing the construction of an intercepting Sewer and Sewage Disposal Plant.

That the Clerk is hereby authorized and directed to furnish such information as the United States of America through the Federal Emergency Administration of Public Works may reasonably request in connection with the application which is herein authorized to be filed.

Passed by unanimous vote.

Moved and supported that we adjourn. Motion carried.

C. A. Miller, City Clerk.

#### An Ordinance To Regulate The Sale And Distribution Of Water In The City Of Grayling

The City of Grayling Ordains:

##### Section 1. General.

Every consumer, owner, occupant or person in charge or control of any premises shall be subject to the provisions of this ordinance and such other rules as the City of Grayling may adopt.

##### Section 2. Terms and Definitions:

The following terms are herein defined: Service, service pipe, superintendent, premises, plumbing, watermain, established street grade, meter, curb cock, street portion, consumers' portion, valve with waste, corporation cock, department, owner, meter well, council, shut off, service box.

##### Section 3. Application for Service:

All persons shall be required to make application in writing for water service and shall be required to answer truthfully all questions regarding such application which may be put to them by an employee of the Department of Water Supply.

##### Section 4. Installation of Service:

The Consumer may notify the Superintendent by two day's notice in writing that water service is not desired, and the Superintendent shall cause the meter to be removed from the premises. When the consumer desires to have service reinstalled, the fee as established by the Council shall be paid by the consumer.

No person shall make any connection with the water supply system or any repairs or alterations unless such work is done in accordance with the state plumbing code.

No such work shall be done within the street boundaries by other than the employees of the Department of Water Supply.

Service lines shall be laid not less than 5 feet below the surface of the ground.

Services shall be of not less than 3/4" in diameter.

All service pipes of 3/4" diameter shall be of wrought iron, cast iron, lead or copper.

All service lines shall have a curb cock and an iron extension service box.

Every service box shall be equipped with a cast iron cover.

No service shall be laid along the outside wall or in any position where there is danger of freezing. Every service shall be furnished with a valve with waste below the action of frost.

There shall be no connection between the pipes of the city water system and pipes receiving their supply from any other source, provided that such connection may be made if approved by the State Department of Health.

Each house must have a separate connection with the main, except where there are two buildings on one lot.

The cost of installing service pipes shall be borne by the person making application.

All right, title and ownership of the street portion of the service shall be vested in the City of Grayling.

##### Section 5. Meters:

All service connections must be prepared for the use of water through a meter.

On meters larger than 3/4" diameter, the property owner shall pay the increased cost thereof.

Meters shall be set in a clean, dry

## Camp News

## Camp Higgins

An indefinite suspension in plans for this company to divide and occupy the proposed CCC camp site near Moorestown has been ordered by Camp Custer authorities. Had the original orders been carried out half the company would have gone to the new camp by the last of this month.

L. B. Merritt, the educational adviser, is on the program for a discussion of camp papers at the conference of men occupying these positions in the Camp Custer CCC district. The meeting will be held at Mackinac Island Friday, Saturday, and Sunday.

Members of the work crews enjoyed a special holiday Monday. No time was lost to the work project, however, as this vacation was in compensation for working Saturday, August 31.

Mr. and Mrs. Rex Grant entertained the members of his ground survey crew to a dinner at his home one evening last week. Cards occupied the evening.

Capt. N. D. Young returned to his station at Fort Sheridan Friday, being relieved of his duties as sub-district commander by Major Chas. E. Howard.

It has been announced in "Happy Days," the national CCC paper, that those whose periods of enrollment expire October 1st would not be forced to accept discharges. Capt. Murphy says he has so far received no official communication to this effect, but is of the opinion the statement has been based on authentic information. Quite a few in this organization have expressed their intentions of leaving at the end of this month.

A total of 416 books was circulated from the camp library in August to 133 enrollees. The library has been considerably improved by construction of a new case for the books by Wallace Knott, LEM, from Roscommon.

A new class in first aid will start here next Monday night. A large enrollment is anticipated.

Henry Moore war veteran cook with this organization who was recently discharged for having served the limit of time permitted with a junior organization, was enrolled with the veteran company at Eldorado and left last week for his new duties.

## Camp Au Sable

Prof. Morofsky gave a very interesting talk on insects Monday evening, September 9. Nearly every member of Camp Au Sable attended and Camp Hartwick Pines and Higgins Lake, and Pioneer sent about fifty enrollees to hear the talk. Lieutenant Allen introduced Captain Youngs who is to resign as district commander. The new District Commander, Major Howard was also introduced. After a few words from these officers Prof. Morofsky began his lecture.

He told about the simplicity of an insect's makeup, and how hard it is to eradicate them because of this. He also stated that four-fifths of the life on the earth's surface is insect life. He then explained numerous details about insect life and revealed that they live in a very interesting manner, and do not merely exist as many people think. The Professor gave various reasons for the extensive research work on insects. The one main reason seems to be that they are destroying more timber every year and are also very destructive to

fruit.

The talk was enjoyed by all who heard it and nearly everyone learned something new and interesting about insects.

Refreshments were served after the lecture.

Camp AuSable completed two projects Monday, September 9, which have been in progress for two weeks. One is the AuSable Thunder Bird and the other a backboard for basketball. The Thunder Bird comes from old Indian lore and is designed to keep away evil spirits. "Tex" Buchen, Educational Adviser, supervised and worked on these projects with the aid of the following enrollees: Bill Thompson, Art Sanscritte, Max Williams, But Bearss, Bob Coulter and Steve Yurisch.

Lt. Barr, second officer of Camp AuSable, left Monday, September 9 for a five days leave which he will spend visiting his parents in Grand Rapids.

## Hartwick Pines

Quite a number of boys went to Camp AuSable Monday night to hear Prof. Morofsky deliver an interesting lecture on insect life.

Captain Bryant made a business trip to Camp Custer on Tuesday.

Twenty-three new men arrived here Sunday morning from Camp Custer. They are from Emmet and Charlevoix counties and they all look like promising enrollees.

Mr. Smith, accompanied by Romulus Mathes, Kenneth Parker and Harry Robinson, motored to Gaylord Sunday afternoon where they took in the rodeo. Afterward they drove to Hillman and returned by way of Camp Lunden.

Joseph Kudjia, assistant to the educational adviser, is visiting his home in Kalamazoo this week.

Lt. Pierson will go to his home in Madison, Wis., next week. Mrs. Saunders may accompany him as far as Chicago.

Due to the absence of Dr. Raff from Camp AuSable because of his wife's prolonged illness, Dr. Gottlieb is looking after his duties there.

Mr. Smith and Joseph Kudjia will go to Mackinac Island Friday where they will attend a conference of Custer District Educational Advisers.

## A Shrine To "King Pine"

A shrine to "King Pine" and the early lumbermen of Michigan has been constructed in Hartwick Pines State Park northeast of Grayling in the form of a typical lumberman's camp containing replicas of a camp mess hall, kitchen and workshop.

The buildings are of log construction and were built by CCC men under authorization of the National Parks Service and the Department of Conservation. The Parks Division of the Department intends to maintain them as a logging-camp museum and is desirous of obtaining relics of the lumbering industry for exhibition.

Old lumbermen of Michigan are asked by W. J. Kingscott, state park superintendent, to make contributions to the museum. Among the articles being sought are: Typical old cooking utensils, logging tools, such as saws, peavies, axes, pike poles, skidding tongs, leather bellows, watering sleighs, four-foot dinner horns and camp heating stoves and cooking ranges.

Any article which may commonly have been found in the early lumber camps would be gratefully received, Mr. Kingscott said.

The museum is unique in Michigan in that the buildings were designed and built after the plans of a typical logging camp and already contain many old relics. It is located near the stand of virgin pine timber, which is one of the principal attractions of the park. The buildings are complete and are now open to visitors.

Hartwick Pines State Park was recently dedicated to Major Edward E. Hartwick, who died in France during the World War and whose widow presented the land to the Department of Conservation.

The trouble is—you fellows don't give me much of a chance. Last week I went to see Blackie about his opening and he put me off. "I may not be able to open Thursday," Blackie says. "My table and chairs may not get here in time." Just as though the average citizen cares about the table part as long as there happens to be a handy windowsill or something to set his bottle of beer on once in a while.

Blackie was real nice about it, though. Gave me all the low-down on the opening, which will be found some place else in his column.

So now for the news part.

What might have been a calamity was averted this week, when Mrs. Kenneth Clise discovered papa Clise in the act of trying to feed a Fischer Special hamburger to his small daughter.

"Ken," she cried, "You shouldn't feed her hamburgers, she's less than two weeks old."

"But she will gain pounds!"

Ken says.

"Well," says mamma Clise, slightly mollified, "You might at least take out the pickle, you know very well she hasn't any teeth yet!"

Miss Emma Lovely of Maple Forest has recently been acquired by the Fischer hotel. Although fairly young in years—about eighteen, I think—our Emma knows the restaurant business from A to Z, having acquired her knowledge from an older sister, who worked in those places for years.

In spite of the recent cold wave, the local youngsters are "guzzling" sodas instead of hamburgers. The only reason I can think of is because Clara Atkinson, who used to be one of the waiters at Lovely's Restaurant, is now a "soda jerker" at Mac & Gidley's drug store.

The local girls will be pleased to learn that Lovely's have a new waiter—He's Oscar Goss, married, but v-e-r-y popular.

By the way, the Bill LaGrows' are taking it upon themselves to move from the apartment over the Hanson restaurant to the A. J. Nelson apartment. Bill is one of the "counter hoppers" at the Hanson restaurant.

The first half of the schedule ended in a tie between Spikes and the Lake team. These two teams are expected to meet next Sunday afternoon to settle this tie game. This game will be played about 2:30 at the ball park and is expected to be one of the best of the season. If the Lake team wins this game the two teams then will meet again to battle for the city championship.

Elmer Fenton.

## NEWSPAPER COVERAGE

Few people realize the actual coverage of even the most modest country newspaper. Not long ago an advertising expert was quoted as saying that careful research had ascertained that a certain well known metropolitan paper is read, on an average, for the space of twenty minutes, while the average country newspaper has a "reading life" of three hours to its credit. It is kept around the house for a week. This is something for both subscriber and advertiser to think about.—Herman Roe.

A full page of Tiger baseball pictures now appear daily in The Detroit News. Watch for it.

## AMONG THE RESTAURANTS

(By J. Wellington Burnside)

To tell you the truth, last week's "Restaurant Items" didn't go over so big. There were no compliments but plenty of suggestions and criticisms, both of which I welcomed because I believe it gives me an idea of what the people want.

One Restaurant owner is reported to have remarked to another, "They don't cover enough," he complains; "Just a short time ago, I blew up my perfectly good gas range, at the same time taking a big chance on losing my imported Cuban cook—and what kind of a write-up do I get? (The fire department was called out merely as a precaution) was the way the Avalanche put it."

I want to make a public apology. Mr. Restaurant man, next time you blow up your stove I promise to give you a better write-up.

Even the boss, O. P., jumps me. "Look," he says, "You're terrible. You gotta make 'em laugh," he says. A lot he knows about it. With meat as high as it is, it's almost impossible to make a restaurant man laugh hard enough to enjoy himself.

It made me pretty mad when he told me that. I wanted to drop it. "I'll quit," I says, "I'm resigning!" But he came right back at me. "No," he says, "You got to see us through on this." What he meant to say was, "You've buttered your bread, now you'll have to lie in it." So that's that.

The trouble is—you fellows don't give me much of a chance. Last week I went to see Blackie about his opening and he put me off. "I may not be able to open Thursday," Blackie says. "My table and chairs may not get here in time." Just as though the average citizen cares about the table part as long as there happens to be a handy windowsill or something to set his bottle of beer on once in a while.

"Blackie's" new restaurant is now open for service! Thursday evening marked the opening and the American Legion boys furnished the music, making the rounds of the business places and pleasing the public with their much improved "drumming and belling." We are pleased to welcome Blackie into our Restaurant list and he has asked us to tell you that he has very good service and medium prices. The waiters are Russell Peterson and Aubrey Blaine and Mrs. LeVan is also assisting.

YEARNING UNSATISFIED

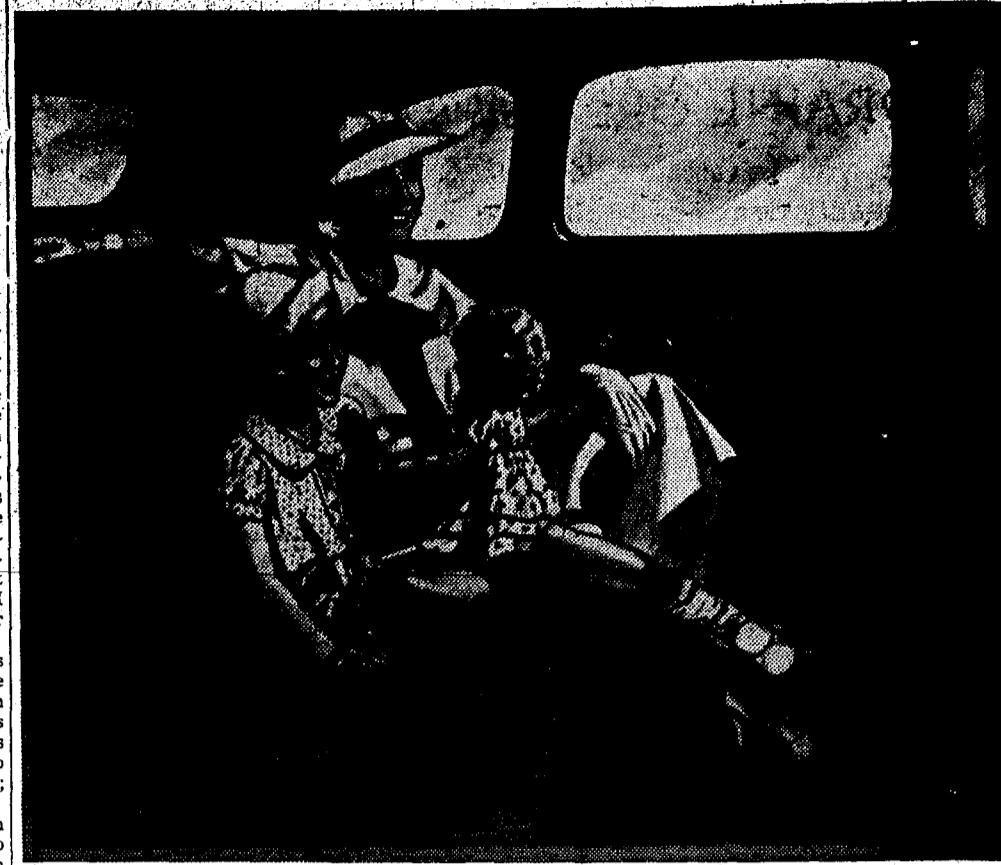

A celebrity was placed next to a talkative and inquisitive maiden lady, who bored him excessively with her questions.

"Tell me, won't you, what was your greatest ambition as a child, and have you attained it?" she asked.

The celebrity looked at her sadly and said: "Madam, I attained my boyhood ambition."

"And what was it?"

"Madam, my great ambition was to throw an egg into an electric fan!"—Stray Stories Magazine.

## There's lots of room in the FORD V-8

EVERY ONE who steps into the Ford V-8 for the first time is surprised at its roominess. There's exceptional seat room, leg room and head room in all body types—the whole car gives you a feeling of substantial size.

The Ford gives you extra body room because of the compact design of the V-8 engine—an exclusive Ford feature at a low price. This V-8 engine takes up less space in the hood and permits more of the car's length to be used for passenger comfort. Many a

car selling at a higher price does not give you as much interior room as the Ford V-8.

Rear seats are wide and restful... three people can ride comfortably in the front seat of the Fordor Sedan, Fordor Touring Sedan, Convertible Sedan and Phaeton, and in the Coupes and Roadster. The seat of the Ford V-8 Roadster is 52 inches wide. A ride in the Ford V-8 will show that it combines unusual body room with fine-car performance, safety and comfort.

## Shall U. S. Own All Munition Plants

## SUBJECT FOR HIGH SCHOOL DEBATE

Shall the United States own all munition plants in order to control the sale of arms from this country to warring nations, and thus foster world peace, or, as in the past, permit private manufacturers to make and sell them where they will and promote war, is the basis for argument in "Nationalization of Munitions," the subject for the nineteenth annual high school debate sponsored by the Extension Division of the University of Michigan. Will the recent Neutrality Act passed by the Congress successfully accomplish this without the course suggested, is a timely angle to the question in view of the imminent Italian-Ethiopian conflict and general European war which it threatens to precipitate.

Last year Monroe High School won the State Championship in competition with about two hundred high schools on the subject: "Federal Aid to Education."

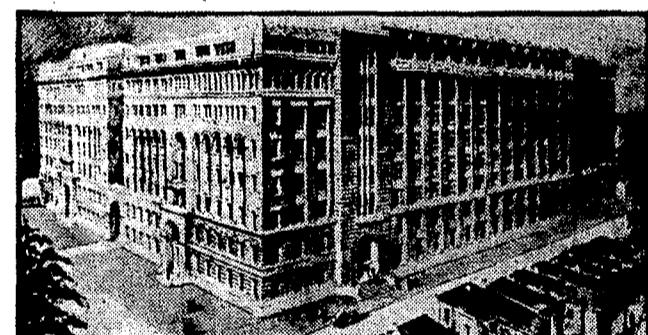

Dr. W. D. Henderson continues as Director of the Extension Division of the University of Michigan, and Dr. William P. Halstead is Manager of the Forensic Association.

## WINE MAKERS ARE WARNED: MUST HAVE SPECIAL LICENSE

Making a jug of wine even for personal use is positively and absolutely illegal without a special license. The federal Alcoholic Tax Unit has issued a warning to all wine makers to this effect. The permit to make wine in the home must be secured five days before starting and is only good for 200 gallons which is as much as any one family needs according to the government specialists. If wine is made illegally it will be confiscated by the government and the offenders prosecuted.—Chesaning Argus.
